EXPERIENCE

RESULTS

When you partner with us you're getting more than just cleaning supplies...

- ✓ Backed by over three decades of experience in the cleaning and sanitisation industry.
- ✓ World class support staff to answer your queries and lend a hand when you need it.
- ✓ Access to our leading online system making complicated orders, a thing of the past!
- ✓ Access to the right products when you need them most without the confusion.
- ✓ Built for childcare with a variety of natural and child-friendly products for your centre.
- ✓ From hand soap, nappies, paper products and bin liners. We've got you covered!

Committed to Excellence

We know that while not overly glamorous, cleaning supplies are essential to the health and safety of your children. With rigorous product testing and a commitment to innovation built directly into our DNA, you can be sure, we'll always go the extra mile!

Utilising products, innovation and experience to accomplish results!

A Partnership you can count on

Just because you can't see what's on the surface, doesn't mean it isn't there.

Health and safety is a concern and major priority for parents and carers when it comes to choosing a childcare centre - and is only rising in importance as we continue to collectively learn more and more about hygiene and its significance in our daily lives.

As such, the consumables and cleaning products that work hard behind the scenes are crucial to your daily routine. And when it comes to running a competitive centre in the early learning space, there's nothing more important than providing a safe area for both learning, and play.

From ensuring you have the right products on hand, to efficiently managing stock levels, having a reliable partner with proven experience in this space to lean on let's you keep doing what you do best: educating and inspiring our future.

We intimately understand the challenges you face every day.

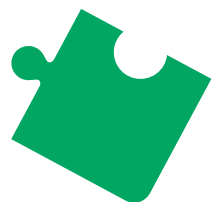

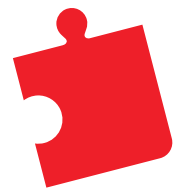

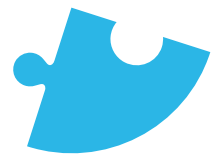

Childcare Cleaning Supplies is not only Queensland's largest independent supplier to the contract cleaning industry, but a true partnership in the childcare and early learning sector.

We've recognised the unique challenges childcare workers face every day and are committed to bringing our knowledge and experience to the table so you and your team can focus on what matters most.

A commitment to excellence - from product to service.

Backed by over three decades of knowledge and experience in the cleaning supply world puts us in a position that's hard to match. With our state of the art technology and online ordering system, we make it easier than ever to get what you need, when you need it.

With us, you're far from an impersonal transaction. Our automated systems streamline our processes, freeing up our dedicated team to better service each account. From specific queries to product recommendations, we've always got your back!

INNOVATION

The Latest and Safest in Cleaning

Our passion for world-class cleaning products may not be contagious, but is absolutely essential!

We work to tackle the biggest issues the childcare sector faces when it comes to cleaning and sanitisation, from products that are friendly for children of all ages, to simplifying the ordering process.

Our goal? Improve efficiencies and bring world-class products to the early learning sector so you can free up more of your time for the things that matter - inspiring and educating children.

An easy to use and more efficient online ordering system

Our purpose-built web ordering system makes it easier than ever to get the products you want, when you need them most.

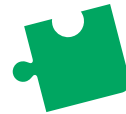

No more getting caught short-handed or waiting for a customer service centre to place your order. Our proprietary system gives you the ability to set and track monthly, quarterly and annual budgets at every level, as well as pre-set favourites lists so your centre managers can feel empowered to make efficient and more economical decisions when placing orders.

We're committed to making our online ordering process fast, simple, and easy to use, with a dedicated customer service team available via phone just in case you ever need that helping hand.

Our key partnerships get you a better deal every time

Having been in the cleaning industry for three decades, we've developed great relationships with our preferred product manufacturers. This ensures you get access to the best possible products for your business.

Most importantly, we work hard to ensure your childcare centre is able to get the best products at the best price - every time.

Perfectly Curated Products

We're proud to put our name on every product we source, stock and sell.

Our aim is not to push product for the sake of pushing product. Every item we stock and supply is thoroughly tested and analysed for both ease of use and effectiveness. We take into account the things that matter most to you, from labour saving equipment to more sustainable products. This is especially important around younger hands and mouths.

Every product we stock is not only fit for purpose, but tested at length to ensure your experience is just as expected.

Nappies & Wipes

We only work with suppliers we've vetted and fully trust. And by always sourcing in bulk, we're able to pass serious savings back to you.

Cleaners & Sanitisers

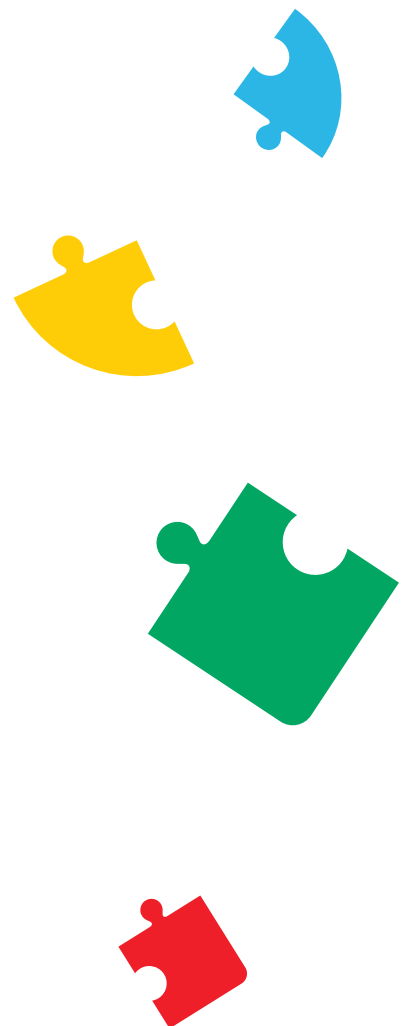

We have an option to suit your centre. From our standard range, to GECA and HACCP certified. We're proud to also offer the latest Ozone generator sanitising bottle - a powerful, natural sanitiser.

Paper Products & Consumables

From dispenser installation to maintenance and support. All our paper products are both PEFC or FSC certified, meaning they're sustainably sourced.

Gloves & Equipment

From vinyl and latex to CPE, TPE and PE - when it comes to gloves, we've got you covered! Our team are experts in all things microfibre and our equipment recommendations are loved by childcare staff across Australia.

Quality Over Everything

Not only do we help our customers comply with the National Quality Standards. We help them surpass it.

We work closely with centre directors in meeting the criteria ensuring a happy, healthy and safe environment. From procuring products we're happy to put our names beside to assisting with labour saving techniques. When it comes to quality, we're committed to setting the standard.

Helping Eliminate the Spread of Virus

We've been working in the cleaning supply sector for over thirty years to help make safer, healthier environments for both work and play. Working closely within the early learning sector to eliminate the spread of outbreaks with best practice cleaning methods is what we strive toward every day.

This allows centres to operate with maximum occupancy rates while maintaining an exceptional standard of hygiene.

More time for what matters

By focusing on labour saving techniques and more efficient cleaning methods, we're able to free up time for staff to do what matters: care for and educate kids.

Parents want a centre they can trust

And that trust starts with us. We help you achieve industry standards with the highest levels of hygiene and sanitation products. We stay behind the scenes with you every step of the way, to make sure you're putting your cleanest foot forward.

Why Choose Us?

- ✓ Consolidate your suppliers to industry experts. We're Queensland's largest 1 stop shop for all of child care centres cleaning and consumable needs.
- ✓ Fixed prices for a minimum of 6 months.
- ✓ Customer service & support is provided by both dedicated infield account executives, and our customer service team in the office.
- ✓ Large stock holdings - no back orders on your daily items
- ✓ Fast delivery via our own vehicles, including putting your stock order into its storage location.
- ✓ Fast product ordering through our award winning web ordering & reporting system. With the ability to pre-set monthly budgets, and capability for multi teared approval.
- ✓ Trained staff with expertise to help identify better cleaning practices, equipment and environmental out comes.
- ✓ We work with our clients to provide solutions inline with ACECQA guidelines QA2, QA3 & QA7 - Children's health and safety, Physical environment & Governance and Leadership.
- ✓ Easy to understand chemical range - e.g. Liquid Laundry, Floor & Surface Disinfectant Cleaner
- ✓ Free on site chemical training with staff and chemical safety/compliance auditing.
- ✓ Toilet paper, hand towel, hand soap and chemical dispensers are provided free of charge including the installation of them.
- ✓ Full centre dispenser fit outs convert to the most cost effective products, including toilet paper, hand towel, hand soap and chemical dispensers.
- ✓ We are making it easy for you to order, understand and use your chemicals and consumables.

How will the change over happen?

After completing a site audit we:

1. Confirm & clarify the products we have quoted you.
2. Supply samples of new products for you to trial.
3. Develop a plan to use up existing products, and confirm your first order.
4. Arrange dispenser installation, if required.

What happens next?

We set up your web ordering log in details and customise your products template, we will provide you training on the re-ordering process as well. We will send you contact details for all key personal in our office & warehouse that can assist you anytime.

What happens when your first order has been placed?

- ✓ We organise your free SDS booklets, chemical charts and labelled spray bottles to be manufactured
- ✓ Arrange onsite chemical training with staff, if required, or provide the Chemical Training DVD to use as required.
- ✓ The day of change over, we will be onsite to help with the first delivery, set up SDS packs and charts. Organise your chemicals and spray bottles, and coordinate dispenser installation, if required.
- ✓ Visit site again within a month to check on stock levels and confirm all products are working as expected.
- ✓ Regular check ins with your account executive.
